

BRICON SPECIAL RING PLIERS

Instructions for use with the Bricon Chip-Stick and Maxculla plastic ring

To insert the Bricon Chip-Stick into the Bricon Maxculla ring.

- Push the Bricon Chip-Stick into the Maxculla plastic ring.
- Ensure that the Chip-Stick is inserted fully into the Maxculla ring.
- If needed use the pliers as illustrated to fully insert the chip-stick.
- You will hear a click when this is done and will then see that the small feet of the Chip-Stick show through the base of the ring.

To place the Maxculla ring on the leg of the pigeon.

- Hold the ring within the jaws of the special ring pliers as illustrated.
- The open end of the ring should face towards the teeth of the pliers.
- Close the pliers and move the ring onto the teeth of the pliers.
- Open the Pliers and the Maxculla ring will open.
- Whilst in the open position, place the ring around the leg of the bird.
- Close the pliers to close the ring to sit it secure around the birds leg.

To remove Maxculla ring from the bird.

- Simply reverse the process used for putting the ring on the bird.

To remove the Chip-Stick from the Maxculla ring.

- The Chip-Stick can be removed if required from the ring.
- Close the ring pliers around the Chip-Stick as illustrated.
- Ensure that flat side of the pliers face toward the ring.
- The angled nose of the pliers should be against the Chip-Stick.
- Use the pliers to lever the Chip-Stick up out of the ring.
